### 3 BCD 2.2

NFA:

DFA:

NFA state	DFA state	a	b
{1,2,4,5,6,7}	1	2	5
{2,3,4,5,6,7,8,10,11}	2	3	5
{2,3,4,5,6,7,8,10,11,12}	3	4	5
{2,3,4,5,6,7,8,10,11,12,13,14}	4	4	5
{9,10,11}	5	6	X
{12,13}	6	7	X
{14}	7	X	X

## 4 helloLex

### 4.1 Question 1

In *hello.fsl*, two regular expressions are present:

```
[ '0'-'9' ]
```

-

Their semantic values (in order):

```
LexBuffer<char>.LexemeString lexbuf  
failwith "Lexer error: illegal symbol"
```

The first regular *[0-9]* matches with a single digit between 0 to 9. Its semantic value will be called upon match, capturing the input.

Second regular expression, which is a catch-all that will account for all other cases that does not satisfy the first regular expression. The associated value will be called upon match, raising an exception stating "Lexer error: illegal symbol".

### 4.2 Question 2

- *hello.fs* file.
- According to the output, we have 3 states.

### 4.3 Question 3

```
~/Desktop/fsharp on brs@embankment.com took 4s  
> fsharp -r FsLexYacc.Runtime.dll hello.fs  
Microsoft (R) F# Compiler version 11.0.0.0 for F# 5.0  
Copyright (c) Microsoft Corporation. All Rights Reserved.  
  
~/Desktop/fsharp on brs@embankment.com took 7s  
> mono hello.exe  
Hello World from FsLex!  
  
Please pass a digit:  
3  
The lexer recognizes 3
```

### 4.4 Question 4

```
~/Desktop/fsharp on brs@embankment.com took 2s  
> mono hello2.exe  
Hello World from FsLex!  
  
Please pass a digit:  
99  
The lexer recognizes 99
```

Refer to the file *hello2.fsl* in the folder *Exercise\_HelloLex*.

## 4.5 Question 5

```
~/Desktop/fsharp on 🌩 brs@bankent.com took 2s
> sudo mono fslex.exe --unicode /Users/bastjansejberg/Documents/GitHub/CatSquish
-PAD-2023/assignment-1/Exercise_HelloLex/hello3.fsl -o hello3.fs
compiling to dfas (can take a while ?.)
10 states
writing output

~/Desktop/fsharp on 🌩 brs@bankent.com
> fsharp -r FsLexYacc.Runtime.dll hello3.fs
Microsoft (R) F# Compiler version 11.0.0.0 for F# 5.0
Copyright (c) Microsoft Corporation. All Rights Reserved.

~/Desktop/fsharp on 🌩 brs@bankent.com took 7s
> mono hello3.exe
Hello World from FsLex!

Please pass a digit:
42.43
The lexer recognizes 42,43
```

Refer to the file *hello3.fsl* in the folder *Exercise\_HelloLex*.
